

**4<sup>th</sup> Central Level Training Sessions on “Service Norms, Conduct & Personality  
Development for Non-Teaching Staff”**

The training of non-teaching staff in an educational institution is of paramount importance. It plays a pivotal role in enhancing overall efficiency and organizational dynamics. Effective communication, collaboration and service skills acquired through training not only enhance workplace interactions for Non-teaching Staff (NTS) but also positively impact the institution’s image. For this purpose a one day training session was organized for NTS on 19 Jan 2024.
